2.0 Brief description of aims and content

The module help the student to explore community issues as it will expose them to essential characteristics and features of ‘relations among community members’ and between ‘inspiration economy’ and ‘resilience economy’ development expert and ‘community structures.’ The module would focus on relations with different NGOs and community leaders, including youth and women.

The projects within the module focus on models that would create impact that leads to the communities development. The students are expected to explain how human relations in their project was taken care of, since Resilience Economy focus on socio-economic development. Hence, ‘culture’, the ‘socialisation process’, ‘group dynamics’, ‘conflict management’ and behavioural science are the main constructs of the module. The assessment of the module would depend on the capacity of the students on ‘development interventions’ that would create an outcome or a positive economic behaviour.
