COVID-19 Complexity & the Risks of Healthcare Workers

Paper 2-Hearing the Silent Voices of COVID-19 Patients

Paper 4-Gamification Techniques to Re-Invent Public Healthcare Services

Paper 3-Nursing Human Factor During COVID-19 Pandemic

Paper 1-‘Lessons from the Front-Line’ Facing the COVID-19 Pandemic

Paper 5-What means to live Uncertainty (Healthcare Staff as a Model)? *(Not Published Yet)*

Projects Led by

COVID-19 Complexity & the Issues of Ventilators

Paper 2- What type of Ventilators Modes most suitable for COVID-19 Patients?

Paper 4- Length of Stay per type of Case

Paper 3- How to Communicate with a COVID-19 Patient on Ventilator @ Different Stages

Paper 1- Do We Need Ventilators for (COVID-19) Patients?

Paper 4- Re-Inventing the Capacity of the ICU

Projects Led by

COVID-19 Complexity & the threat on the Mental Health on the Family

Paper 2- What Type of Stress on Parents?

Paper 3- What type of Anxiety on Elderly?

Paper 3- How Parent Become a Role Model for the Family?

Paper 1- Type of Stress on Children?

Projects Led by

International
Institute of
Inspiration
Economy

Issues of Self-Sufficiency

Paper 2-Optimising Pandemic Response through Self-Sufficiency

Project 1-Build youth trust in the village system as a source of income

Project 3- Improve the distribution chain of local salad by attracting consumers to purchase local vegetables and fruits, and arranging deals between hospitality suppliers and local formers.

Paper 3-Case Study on Creating Resilient Self Sufficient Food Security Programs in Middle East.

Paper 1- Global Self-Sufficiency Network-A Collaborative Approach for Addressing Post-COVID-19 Challenges.

Project 2- Re-design Bahraini farmers' produce through establishing what is called "National Farmers' Day" *Projects Led by*

Issues of Self-Sufficiency (2)

Project 5-Improve the level of Gardening Competitions

Project 7-Improve the quality of sea food on the table of middle-class family.

Project 9-Re-evaluating the Current Assets of Islamic Endowments (such as disserted lands) and how they are professionally managed

Project 6-Improve return on Investment (ROI) in fisheries and the resilience in marine food industry

Project 4- Increase Palm trees protections, care, production and by product industry develop

Project 8-Gain pure water from Re-Ducting Air Handling Units in Large government enterprises as University, Hospitals and Airports.

Issues of Self-Sufficiency (3)

Project 11- Formal and Informal Education for children in slums areas.

Project 13- Collection of small and large projects that target to create a comprehensive eco-tourism village.

Project 15- Involve all the village and youth to produce semi high-end products relevant to what the green house produce.

Project 12- Improve Quality of Life of 'Waste Pickers' Families through differentiating their productivity from Municipalities coming Waste Management

Project 10- Target to deliver education to rural and isolated communities.

Project 14- Series of small projects related to working from home and provision of raw materials to making gift products, fashion design are inter-related and this gives more importance to the project.

Issues of Self-Sufficiency (4)

Project 17- Digging water wells for provision of water for farming

Project 18- Preparing Water Dams to collect water for farming throughout the year

Project 21- Addressing the influence of clean water on the life development and as per the demographics of village

Project 19- Guiding farmers in well utilization of water through irrigation systems

Project 16- Branding, Packaging, Labelling and Marketing of the semi high- end products of the eco-village.

Project 20- Harvesting crops of high returns and low water consumption

Project 22- Install long life water purifiers in the village and ask for labour work donation for maintaining the condition of purifier.

Projects Led by

Issues of Self-Sufficiency (5)

Project 24- Networking the work of the locals in peanut butter in coordination with the peanut factory in Kordofan - a selection of peanut butter products for the village

Project 26- Identification of villages that will be worked with on small projects for juice

Project 28- Youth Bamboo Villages Camps & School

Project 25- Identification of leather products that can raise the nature of their design (such as shoes, bags and similar)

Project 23- Improving the quality of handcrafts finishing and representation in the villages.

Project 27- Reproduction of the cheese village - Kordofan - Sudan

Project 30-

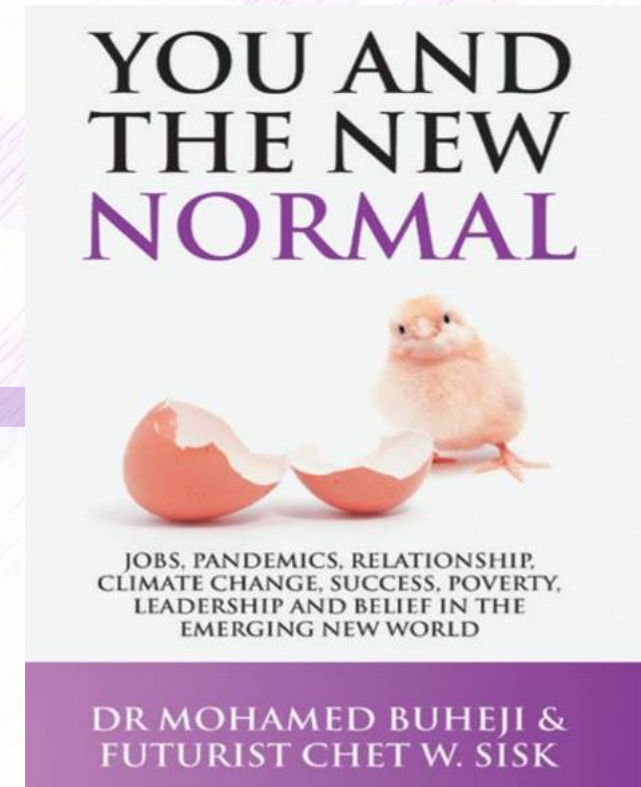

Complexity of the New Normal

Paper 2-What is the New Normal? (Book)

Paper 4-Foresight of Coronavirus (COVID-19) Opportunities for a Better World

Paper 3-Planning Competency in the New Normal– Employability Competency in Post-COVID-19 Pandemic

Paper 1- Foresight of Coronavirus (COVID-19) Opportunities for a Better World

COVID-19 & Risks on Family

Paper 2-COVID-19

Information-Seeking
Behaviour and Anxiety
Symptoms among Parents.

Paper 4-Meta Data on Stress
Exposure on Families during
COVID-19

Paper 3-Mitigation of Risks of
Complications and Deaths among
the Elderly during Pandemics

Paper 1- Children and Coping During COVID-19
(Bio-Psycho-Social Factors).

COVID-19 & Poverty

Paper 2- Poverty and Entrepreneurship in Developed and Developing Economies

Paper 4- Eliminating Poverty through Educational Approaches

Paper 3- Discovering Pathways for Eliminating NEET and Youth Future Type of Poverty

Paper 1- Extent of COVID-19 Pandemic Socio-Economic Impact on Global Poverty. *A Global Integrative Multidisciplinary Review*

Paper 6- Poverty Labs- From 'Alleviation' to 'Elimination and then Prevention'

Paper 5- Re-defining Our Approaches to Extreme Poverty: *An Attempt to Disrupting Contemporary Poverty Alleviation Approaches*

Elimination of Poverty (2)

Project 1- Building a poverty blockage and prevention program

Project 3- Screening girls in villages for Anemia and link to socio-economic situation and productivity

Project 2- Establish a model for Blanket as part of 'Fashion Design Course; in collaboration between the University and the under-privileged women

Paper 7- 'Re-designing the Economic Discovery of Wealth' a Framework for Dealing with the Issue of Poverty

Project 5- Develop the Soap Factory High end program (quality of production, packaging, marketing, distribution channels)

Project 4- Set preventive measures for future cases in the community with proper family planning.

Projects Led by

Elimination of Poverty (3)

Paper 9- Review of Lessons Learned from the 'Asian Poverty Elimination Efforts'

Project 10- Shea Butter & Organic Oil Production Project

Project 7- Enhance product quality, or differentiation, or type of distribution.

Project 9- Girls home Education in the Villages

Project 8- Build brand for the unique products and create more market demands.

Book1- The Intent
Stories on Poverty Elimination

Paper 8- 'Evaluate the uniqueness of the poor people products or available resources in abundance.'

Project 11- Village Coops and Water Wells run by Women

Projects Led by

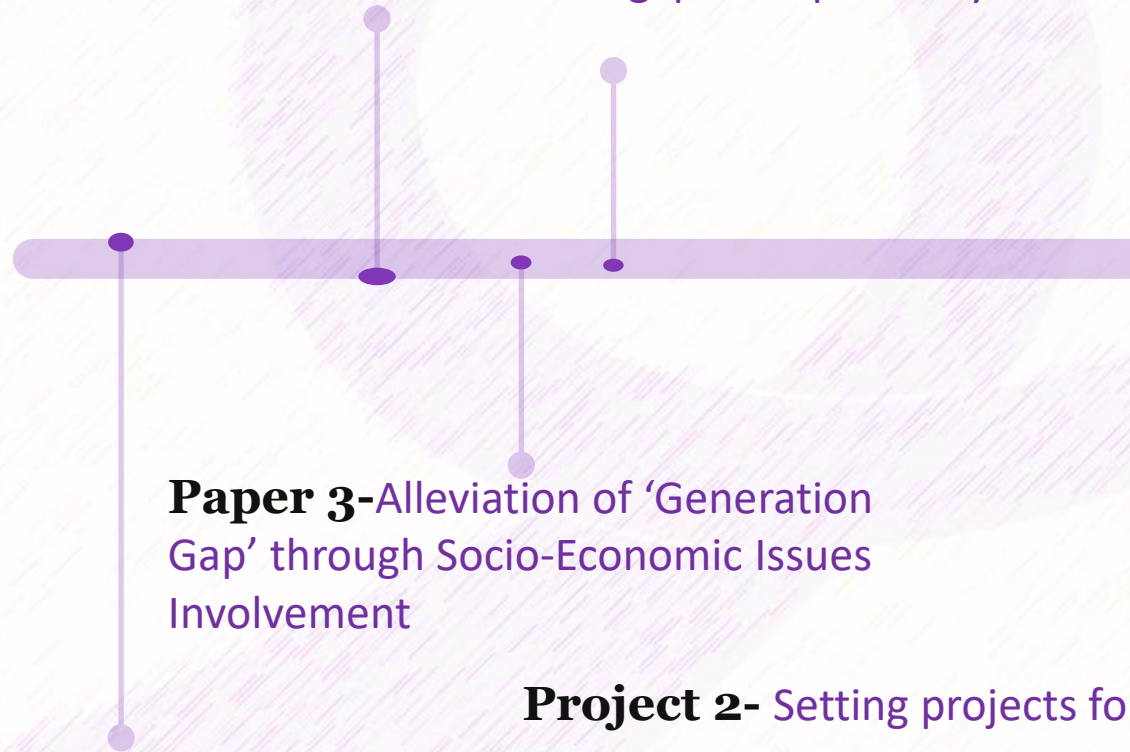

Foresight of Future Generations

Paper 2- Storytelling for Closing Intergenerational Gap

Project 1- Creating Discussion Group between the different last three generations that identifies: the respected difference, the gaps and positivity of intergeneration gap.

Paper 3-Alleviation of 'Generation Gap' through Socio-Economic Issues Involvement

Paper 1-Future Foresight of Post COVID-19 Generations

Project 2- Setting projects for mitigation of the gaps

Projects Led by

COVID-19 & Mental Health

Project 1- Enhancing Red-Cross Programs Impact in the positive psychology of the community

Paper 4-

Paper 3-

Paper 1- Minimising Stress Exposure During Pandemics Similar to COVID-19

Projects Led by

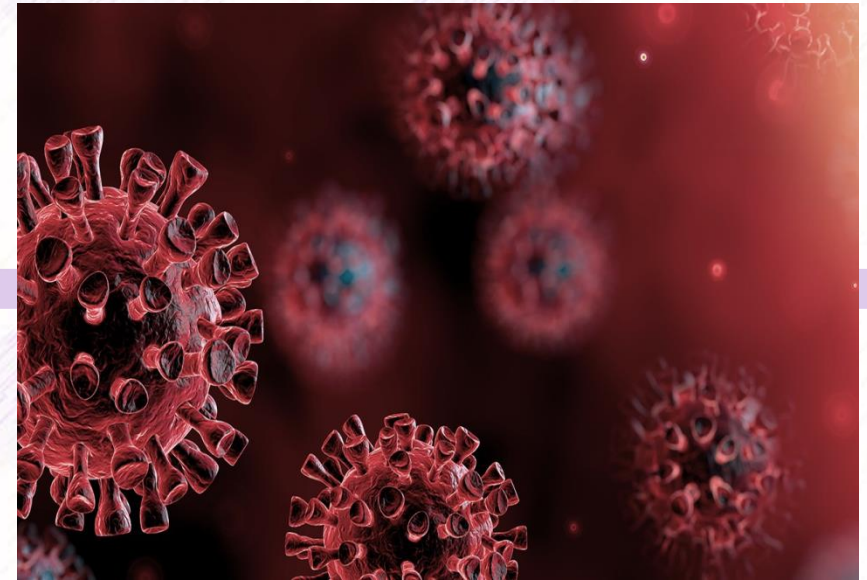

Simplifying Complexity of COVID-19

Paper 2- Stopping Future COVID-19 Like Pandemics from the Source- 'Re-inventing Zoonotic Virus Foodborne Diseases Inspection'

Paper 4- Designing Intelligent System for Stratification of COVID-19 Asymptomatic Patients

Paper 3- Mitigating the Tsunami of COVID-19 through Sustainable Traceability

Paper 1- Coronavirus as a Global Complex Problem Looking for Resilient Solutions

Resilient Economy Communities

Paper 2- Reviewing How 'Creating Resilient Economies' can Help Developing Countries in Uncertain Times

Paper 4- Understanding of the Economies of Neighbourhoods and Communities,

Paper 7- Role of Empathetic Engineering in Building More Resilient Green Economy.

Paper 3- Museums and its role in Resilient Creative Economy

Paper 6- Understanding the Power of Resilience Economy

Paper 1- 'Visualising Resilient Communities'

Paper 5- Economics of Climate – Resilient Development

Book1- Understanding the Power of Resilience Economy *Projects Led by*

UNDERSTANDING
THE POWER OF
**RESILIENCE
ECONOMY**

An Inter-Disciplinary Perspective
to Change the World Attitude
to Socio-Economic Crisis

MOHAMED BUHEJI

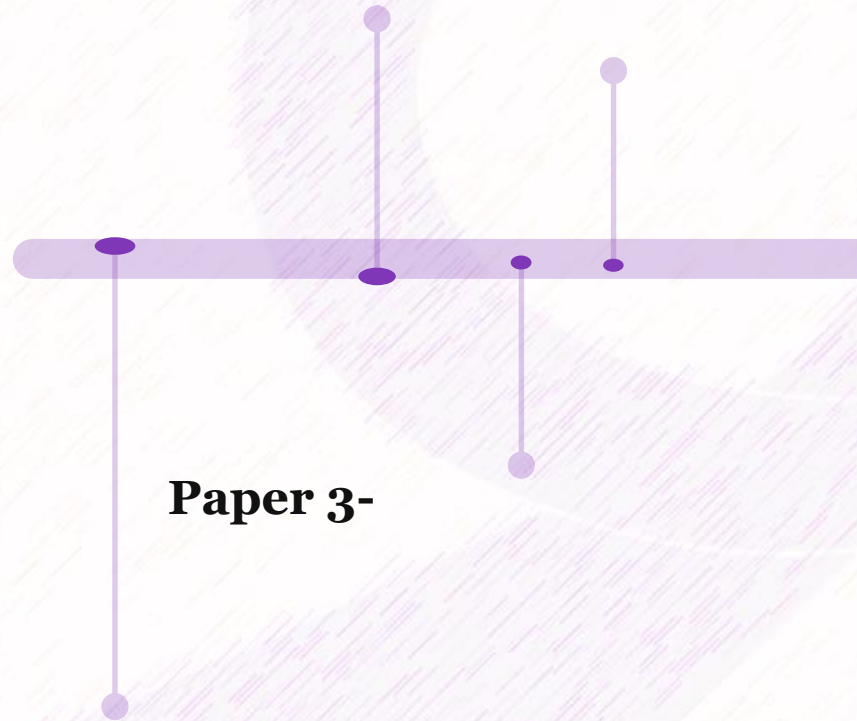

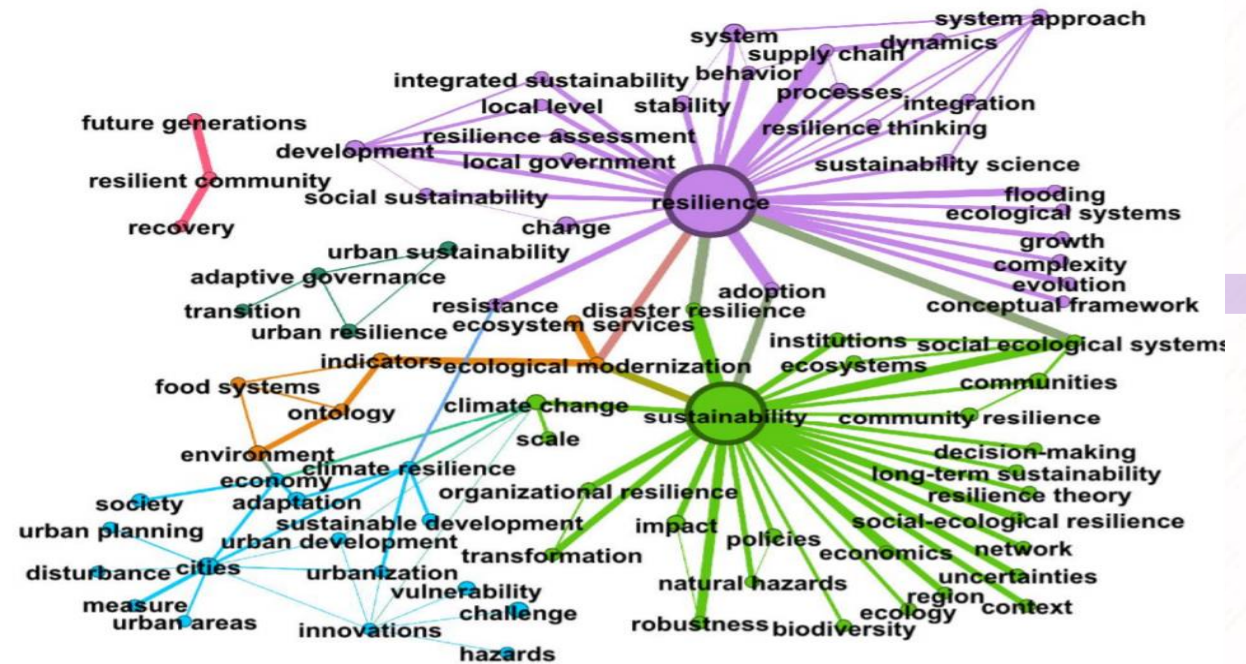

Complexity of Creating Legacy

Paper 2-

Paper 4-

Paper 3-

Paper 1- Realising 'Creating Legacies' & 'Meaning of Existence' as Inspiration and Resilience Economy Concepts

Complexity of Future Foresight

Paper 2-Optimising the 'Economics of Curiosity' for Better Future Foresight

Paper 4-Shaping the future of Poverty Economy

Paper 3- Youth between Labour Market and NEET - Critical Review on the Foresighted Challenges

Paper 1- Foresighting Economic Spillovers Towards Transformative Change)

Paper 5-Shaping Future Type of Poverty - The Foresight of Future Socio-economic Problems- Beyond 2030

Complexity of Boosting Competitiveness

Paper 2- Competitiveness of Government Organizations through Customer Satisfaction in a Knowledge Economy

Paper 4-

Paper 3-

Paper 1- Boosting Competitiveness Learning from a European Perspective

Realising Socio-Economic Spillovers

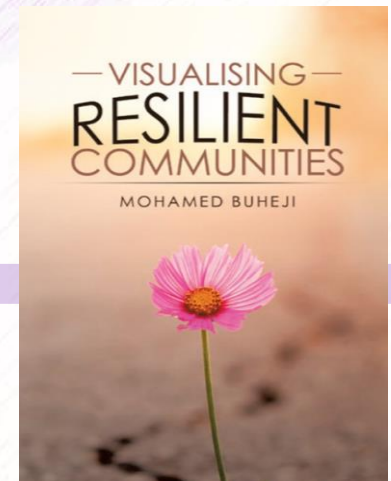

Paper 2- Creating Innovation Policies that Leads to Positive Future Spillovers

Paper 4- Geographic Influence on Innovation and Entrepreneurship Spillovers

Paper 6- Influence of Modern Welfare State on Socio- Economic Development'

Paper 3- Planning for 'The New Normal' - Foresight and Management of the Possibilities of Socio-economic. Spillovers due to COVID-19 Pandemic

Book1- Visualising Resilient Communities

Paper 1- Socio-Economic Projects Spillovers and Their Influence on Communities Development

Paper 5- Foresighting Economic Spillovers Towards Transformative Change

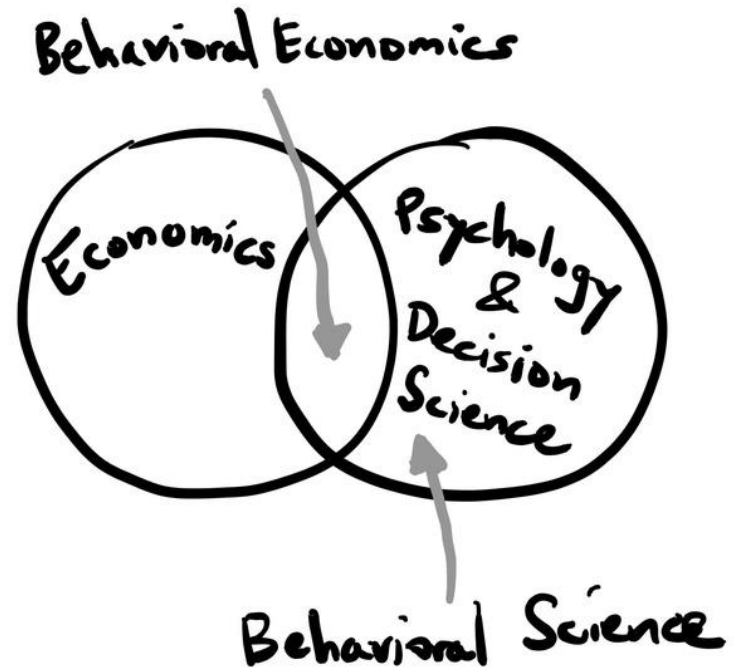

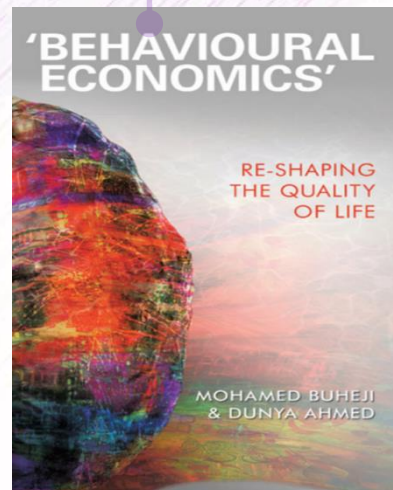

Optimising Behavioral Economics

Paper 2-Reviewing Implications of “Behavioural Economics” on Our Future Life

Paper 4-Nudge Theory vs. Inspiration Economy Labs- Comparing the Depth of Influence on Socio-Economics Behaviours,

Paper 3-‘The Trust Project’ Building better accessibility to Healthcare Services through Behavioural Economics

Paper 1 & Book - ‘Behavioural Economics’ Re-shaping the Quality of Life

Improving Quality of Life

Paper 2- 'Influence of Modern Welfare State on Socio- Economic Development'

Paper 4- Practices of Future Foresight in Management of Non-Communicable Diseases

Paper 6- Happiness and Quality of Life

Paper 3- Research on Economic and Social Well-Being

Paper 5- 'The Trust Project' Building better accessibility to Healthcare Services through Behavioural Economics

Paper 1- Re-shaping the Quality of Life thru 'Behavioural Economics'

Paper 7- 'Lifelong learning' and 'Qualities of Life' programs through inspiring projects that bridge between (Schools, Families, Local Super Markets, NGO's).

Improving Quality of Life (2)

Project 2- Improving the Quality of Life of the Elderly/ Geriatric Care Homes through exploring social asset of Day-Care Homes, instead of permanent residency homes.

Project 4- Enhance the return from Elderly homecare production

Project 6- Supporting 'Working from Home' Program

Project 8- Enhancing the products quality and competitiveness of the Retired

Project 3- family businesses that have higher Return on Capital Employed

Project 5- quality of life of the Disabled People and their Production

Paper 1- capacity of the productive family program to be more self-independent and attractive for more family members

Project 7- Capability of Social Allowance Value and Entitlement – in relevance to Quality of Life with priorities

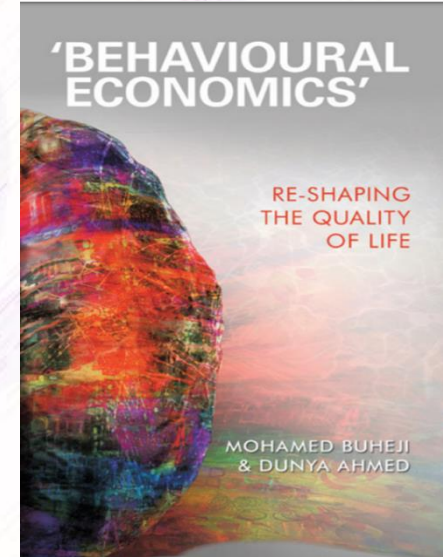

Improving Quality of Life (3)

Project 10-Quality of Life of Families in isolated communities and tribes

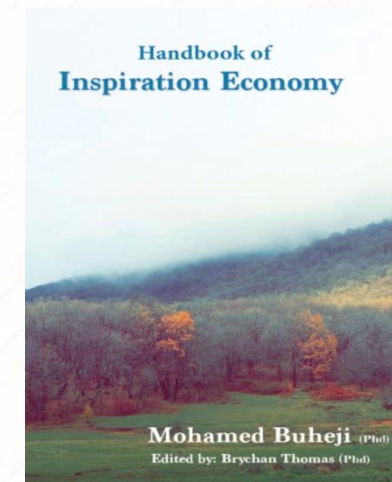

Project 12-Improving the speed at which electricity is connected (9 times) faster.

Book 2- Behavioral Economics & QoL

Project 11- Reduce impact of inherited poverty through eco-tourism projects

Book 1- Handbook of Inspiration Economy

Project 9- Micro Start Families with focus on Women and People Vulnerability.

Environmental & Energy Conservation

Project 2-Improving 'uptime' of electricity supply to 97% to 99% by focusing on scheduling demand response and electricity shedding of through collaborative heavy load consumers' programs.

Project 4-Applying more discount for less consumption consumers, or the less polluters, instead of charging more for more consumption consumers only.

Project 6-Enhance the forecasting & intelligence of Detecting Hidden Water Leakage.

Project 3-Minimising water loss by inspiring the ability to discover the early leakages by the process of observation

Project 1-Enhance energy conservation practices through re-engineering the bill scheme and design

Project 5-Minimising blackouts or electricity interruptions during hot summers in countries where temperature reach (above 45C) by enhancing sub-stations maintenance programs in collaboration with contractors.

Everspring Living

Projects Led by

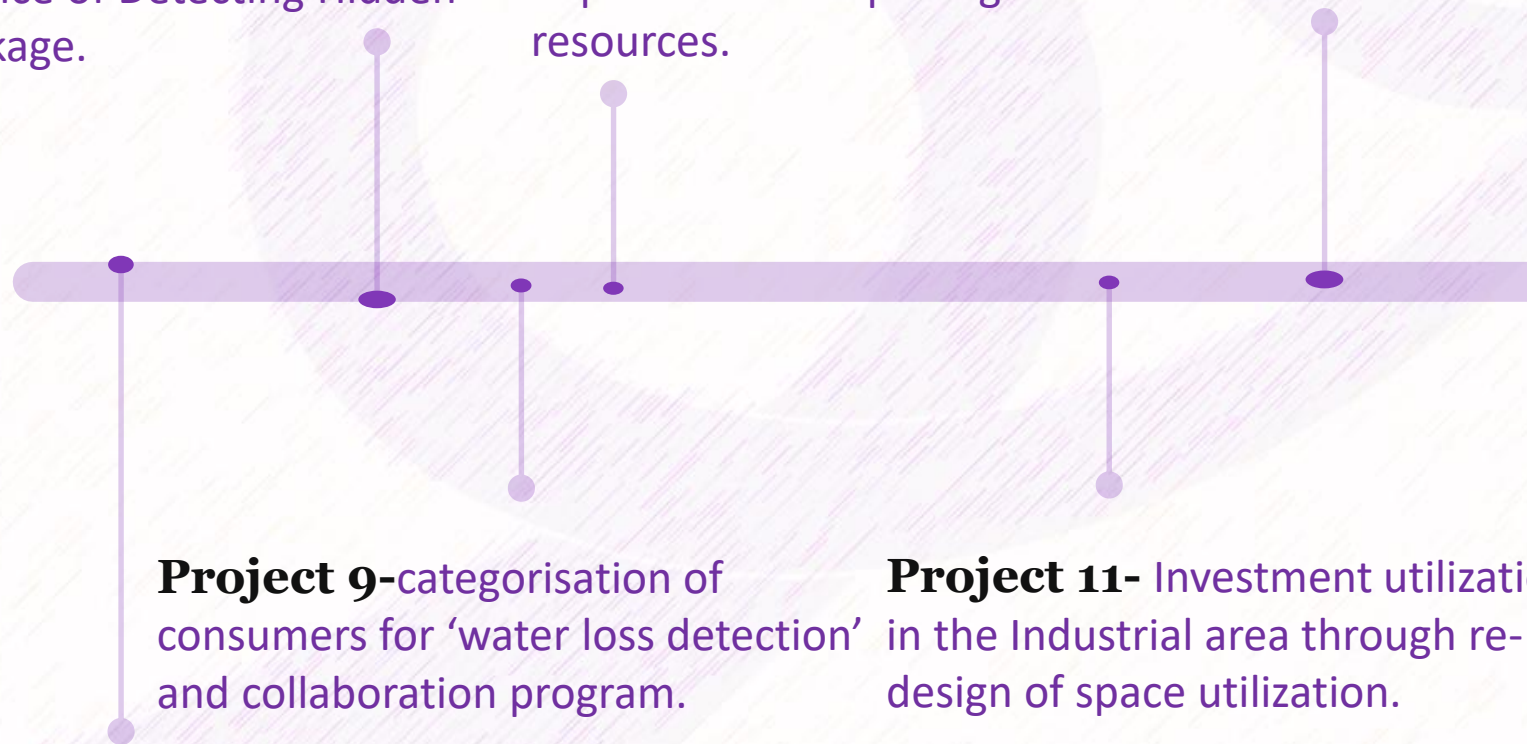

Environmental & Energy Conservation (2)

Project 8- Enhance the forecasting & intelligence of Detecting Hidden Water Leakage.

Project 10- Enhance throughput of Environmental friendly industrial projects that less dependent on depleting resources.

Project 12- Building a comprehensive model that prove local community are ready for effectively segregating and recycling of waste.

Paper 7- Re-engineering 'Water Network System' Intensive Maintenance Programs and linking it innovation in water pipes development.

Project 13- Segregating waste bins implantation in universities, schools & hotels, residential societies

Environmental & Energy Conservation (3)

Project 14-Enhance recycling culture and practices, besides prove its financial benefits for decision makers, without increasing resources.

Project 18-Re-engineering the National Damping Yard to prepare for effective recycling, less pollution and prevent diseases in nearby housing areas.

Project 16- Emphasis polluter pays even on governmental entities

Project 19-Reduce unorganised land reclamations that have negative influence on the quality of life for the next three generations.

Project 15-Reduce unorganised land reclamations that have negative influence on the quality of life for the next three generations.

Project 17-Gain pure water from Re-Ducting Air Handling Units in Large government enterprises as University, Hospitals and Airports.

Project 20-Enhance management of Medical Waste and Dangerous Materials & Chemical Recycling

Environmental & Energy Conservation (4)

Project 22-Improve the Nursery project and ensure the proper distribution channel of Nursery plants

Project 24-Target is to gradually make the village reach tourist spot with different hospitality activities specially during holidays and specific seasons

Project 21- Involve all the village and youth to produce semi high-end products relevant to what the green house produce.

Project 23-Collection of small and large projects that target to create a comprehensive eco-tourism village.

Project 21-Processing of the collected waste in to high end products (i.e. Metals, glass, papers, and organic wastes) processed to high end products.

Project 20- Harvesting corps of high returns and low water consumption

Youth Economy

Paper 6- Lessons for Children from Local Folk Tales

Project 1- Optimise the Youth Quality Life through Students Pull thinking targeted programs

Paper 2-In Pursuit of a Youth Life-Purposefulness Program

Paper 4- 'Youth Role in Transforming Change towards a better World',

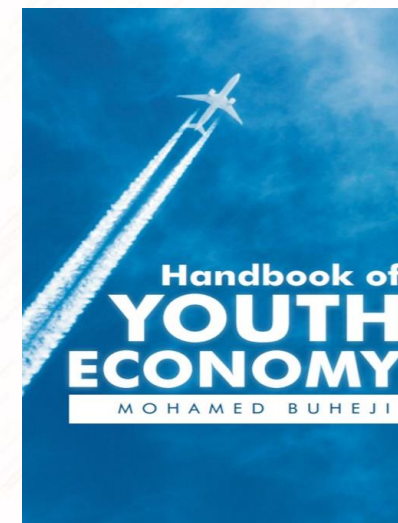

Paper 3-Youthineering- 'New Perspectives on Youth Economy

Paper 7- Youth Economy and Utilisation of Lost Opportunities

Paper 5- Empowering Young People in Disempowering Times

Book 1- Handbook of Youth Economy

Paper 1-Youth between Labour Market and NEET - Critical Review on the Foresighted Challenges

Youth Economy (2)

Project 3-Enhancing Youth contribution in voluntary work through rectifying and supporting change in Football Club

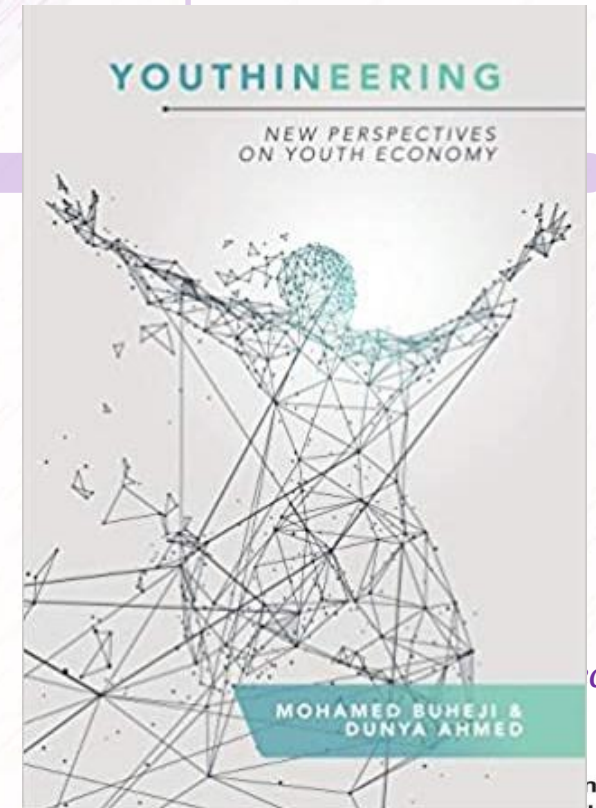

Project 5- Improving life purposefulness for 'children without a known parents' programs

Project 4-Enhancing Youth contribution in voluntary work by rectifying and supporting change in Sport Clubs

Book 2- Youthineering

Project 2-Addressing the Gambling (pitting) behaviour amongst youth and building prevention scheme through schools' model

Project 6-Study reasons for 'open defecation' starting with youth in schools & work on the availability of toilets in homes and villages

Foresight of Coming Crisis

Paper 2- Reviewing How 'Creating Resilient Economies' can Help Developing Countries in Uncertain Times

Paper 4- Foresighting Economic Spillovers Towards Transformative Change,

Paper 5- Youth between Labour Market and NEET - Critical Review on the Foresighted Challenges

Paper 3- Planning for 'The New Normal' - Foresight and Management of the Possibilities of Socio-economic. Spillovers due to COVID-19 Pandemic

Paper 1- Framework for Mitigating Coming (Foresight) Socioeconomic Crisis

Paper 6- Foresight of Future Socio-economic Problems & Solutions - Taking Poverty as a Context- Beyond 2030,

Socioeconomic Challenges

Paper 2-Socio-Economic Problem Solving

Paper 4-Youth Unemployment Mitigation Labs

Paper 6- Recognising Lives around Socio-Economies?

Paper 3- Foresight of Future Socio-economic Problems & Solutions - Taking Poverty as a Context- Beyond 2030

Paper 1-Framework for Mitigating Coming (Foresight) Socioeconomic Crisis

Paper 5-'Influence of Modern Welfare State on Socio- Economic Development'

Projects Led by

International
Institute of
Inspiration
Economy

Challenges in Government/Public Sector

Paper 2- Behavioural Economics Trends in Improving Governments Outcomes

Paper 4- Speeding up different Municipalities Permits and reducing need for pre-inspection to 80%.

Project 2- Speed of repair and active learning on the high-ways black spots areas.

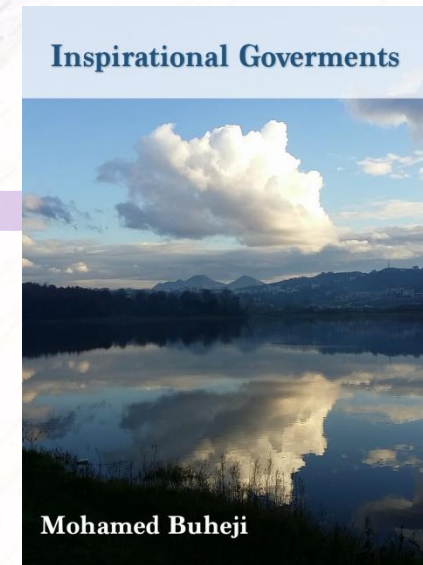

Book 1- Inspiring Governments

Paper 3- Success Story in the Context of Public Sector:

Paper 1- Re-Inventing Public Services Using Gamification Approaches,

Paper 5- Government R&D centre to deliver multi-disciplined projects

Project 1- Redesigning the public buildings for schools, hospitals to create more multi-purpose buildings owned by the Government and measured for its rate of occupancy and utilization.

Challenges in Government/Public Sector (2)

Project 4- Improve consumers' habits practices in dealing with sewage system thru: what goes into the 'drainage system' vs. 'what goes on waste separators'.

Project 6- Reducing the unpaid government and non-government bills by more than 50% in only three years.

Project 8- Create Space Valuation based on type and value of exhibitions.

Project 5- Enhancing sewage system designs based on areas of repeated blockages & station pumps designs.

Project 9- Improve the flow between 2 points in new highways projects

Project 3- Minimising water loss by inspiring the ability to discover the early leakages by the process of observation

Project 7- Improve the occupancy rate of national exhibition centre through diversification management

Challenges in Government/Public Sector (3)

Project 11- Improving the capacity of traffic accident teams to evaluate the sources of accidents from the vehicle, the road and the driver to put effective preventive plan

Project 13- Enhancing the choices and variety of options in non-villa packages (i.e. flats)

Project 15- Raise confidence through enhanced quality (traffic service).

Project 12- Reduce gap in Housing Services between citizens' demands and their quality of life needs

Project 10- Redesigning way of managing signs during nights and road construction or modification work.

Project 14- Reduce the negative social inequality and improve social coexistence through post-housing services

Project 16- Enhance the rights of the family in speeding up the courts delays.

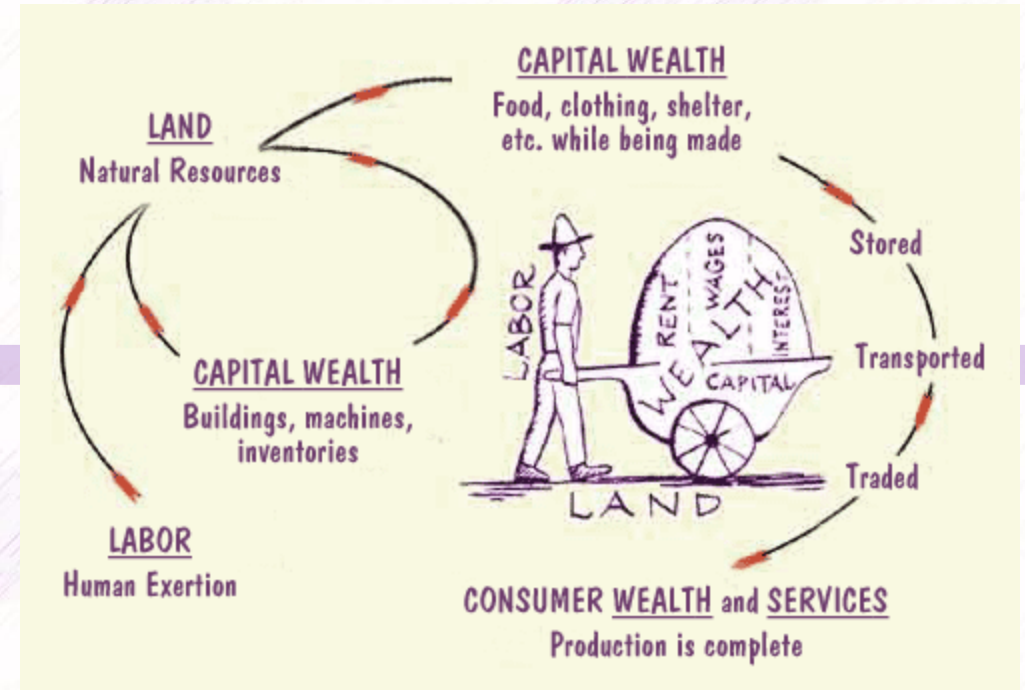

Mitigating Effects of Capital Economy

Paper 2-A New Model of Socialism-Democratising Economic Production

Paper 4-Distribution of Wealth – Growing Inequality?

Paper 3-The Secrets and Future of Global Cities

Paper 1-‘How Capitalism is Destroying Itself?’

Projects Led by

Optimising Social Innovation

Paper 2- Innovation in Developing and Transition Countries

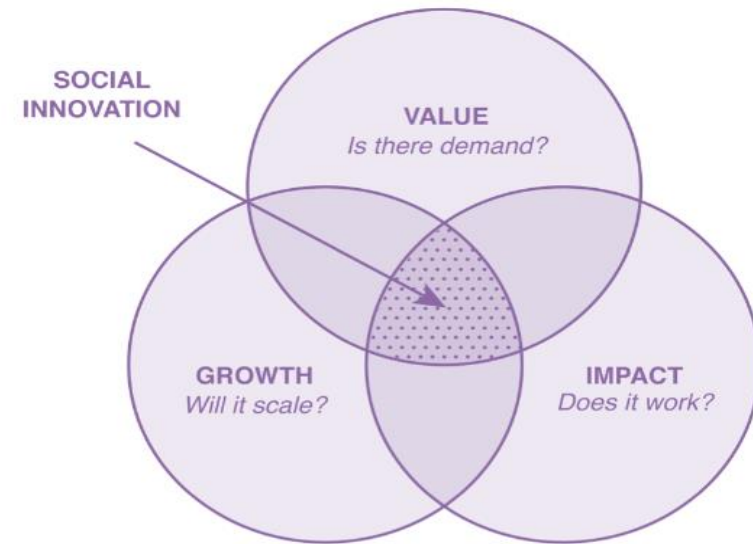

Paper 4- Endogenous Innovation: The Economics of an Emergent System Property

Paper 6- Capturing the Innovation Opportunity Space Creating Business Models with New Forms of Innovation

Paper 3- Innovation and Culture in Public Services - The Case of Independent Living,

Paper 1- Social Innovation and Sustainable Entrepreneurship

Paper 5- Capturing the Innovation Opportunity Space Creating Business Models

Optimising Entrepreneurship

Paper 2- Understanding Necessity Entrepreneurship

Paper 4- Art of Capturing Opportunities— Screening Arab Social Entrepreneurs

Paper 6- Improving the cash flow status of Family Enterprises and reducing bad debts

Paper 3- Entrepreneurial Neighbourhoods

Paper 7- smooth transition of businesses from 2nd to 3rd generations.

Paper 1- Social Innovation and Sustainable Entrepreneurship

Paper 5- Family Business towards Lean Governance

Paper 8- Building Independent Business Models

Optimising Entrepreneurship (2)

Project 2- Raising the capacity, the differentiation of the 2nd generation

Project 4- Improve Quality of life of Villagers thru eco-tourism

Book 1- Reinventing our Lives

Project 3- Transformation high-end product

Project 7-

Project 5-

Project 1- Ensuring 2nd generation appreciates the importance of family business governance

Project 8-

Economy of Problem Solving

Paper 2- Unemployment Mitigation Labs - An Empathetic Approach for Complex Problem

Paper 4- Influence of visualised reflection on 'solving socio-economic problems'

Paper 6- Re-Inventing Our Lives, thru Socio-Economic "Problem-Solving"

Paper 3- Understanding the Economics of Problem-Solving.

Paper 1- Socio-Economic Problem Solving

Paper 5- Shaping the Anatomy of Socio-Economic Community Problems towards Effective Solutions

Book 1- Inspiration Engineering & Socio-Economic Problem Solving

BREAKING THE SHIELD

Introduction to Inspiration Engineering: Philosophy, Practices and Success Stories

Mohamed Buheji
Dunya Ahmed

Inspiration
Economy

Complexity of the Unemployment

Paper 2-Fighting Inequality through Capability Oriented Policies & Programs

Project 2-unemployment rate through effective counselling

Project 4- social responsibility plans to ensure that selective type of lower pension jobs are more prepared for entrepreneurship after retirement.

Project 1-stratification of Human Capital data and building models in specific industries as per countries sustainable socio-economy needs

Paper 1-Youth Unemployment Mitigation Labs - An Empathetic Approach

Project 3- Improving locals' employment and demand in areas of hospitality, engineering and nursing

Project 5- Build youth independence program that counter the poverty through raising the capacity of the farmers for competitive packaging and distribution.

Complexity of the Unemployment (2)

Project 7- Closing the Gender Gap in Unemployment, by re-inventing new productivity jobs for Graduating Women.

Project 6- Starting 'Social for Profit' Companies for Unique Jobs as Nursing, Social Workers, Hospitality Services, Cosmetic's, etc.

Curiosity Design

Paper 2-Enhancing Human Capacity.
Curiosity as an Example

Paper 4- Optimising the
'Economics of Curiosity' for
Better Future Foresight.

Paper 6- Tracking how Curiosity
Can Solve Future Socio-Economic
Challenges.

Paper 3-Designing a Curious Life

Book 1-Designing a Curious
Life

Paper 1-Designing a
Curious Life

Paper 5- Optimising the
'Economics of Curiosity' for
Better Future Foresight.

Projects Led by

International
Institute of
Inspiration
Economy

Sport Economy

Project 2- Enhance the throughput of horse injury intervention

Project 4- Enhance the communication model between the Camel Owner, Care Rider, Camel Trainer and Camel Veterans. And nursery team.

Project 7- Use Sport to keep youth in schools for longer hours during peak drugs trafficking time

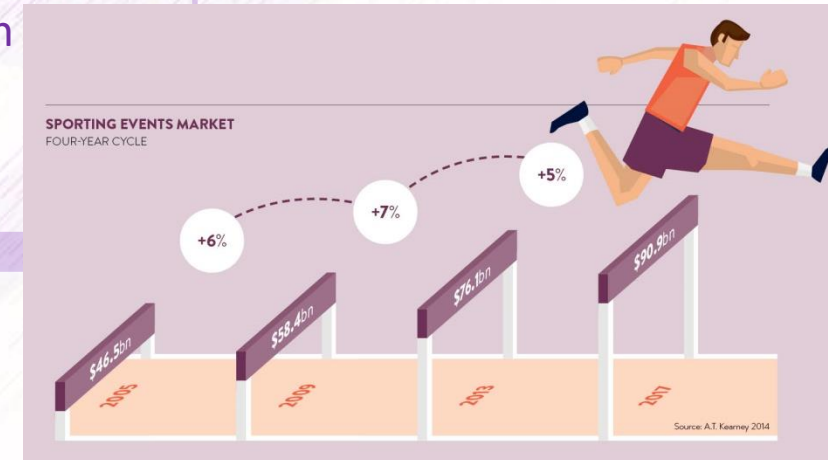

Project 6- Integrating youth with both formal sport and traditional games

Project 3- Prepare the full-time Horse jockeys for early retirement where they can be trainers or experts or administrators

Project 8- Use of Sport to Inspire Children of Poor Communities to see better Future

Paper 1- Sports Economics Current & Future Perspectives

Project 5- Set a knowledge management program between the Four main specialties in and around Camel Care

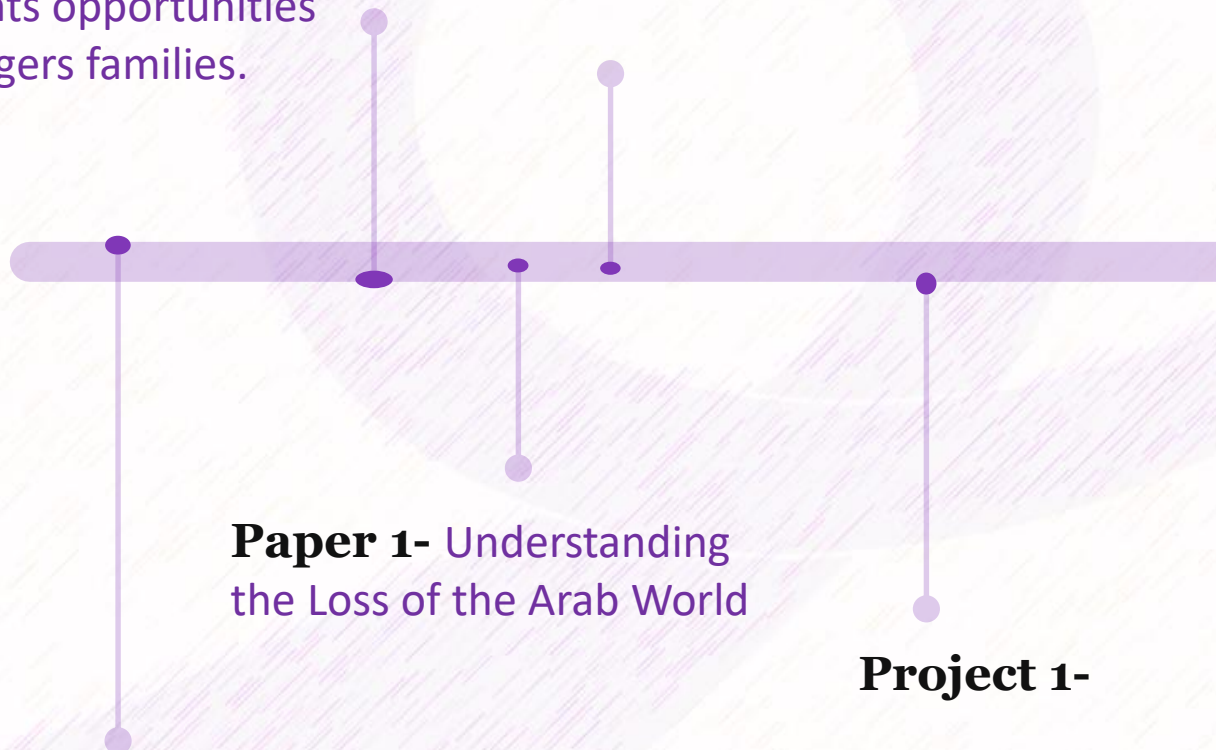

Migration Economy

Project 2- Reduce Migration of Youth with more employments opportunities for the villagers families.

Project 3- Minimising migration from rural to urban cities

Project 1- Mitigation of Migration amongst Bosnian Youth

Project 1-

Emerging & Developing Economy

Paper 2- Innovation in Developing and Transition Countries

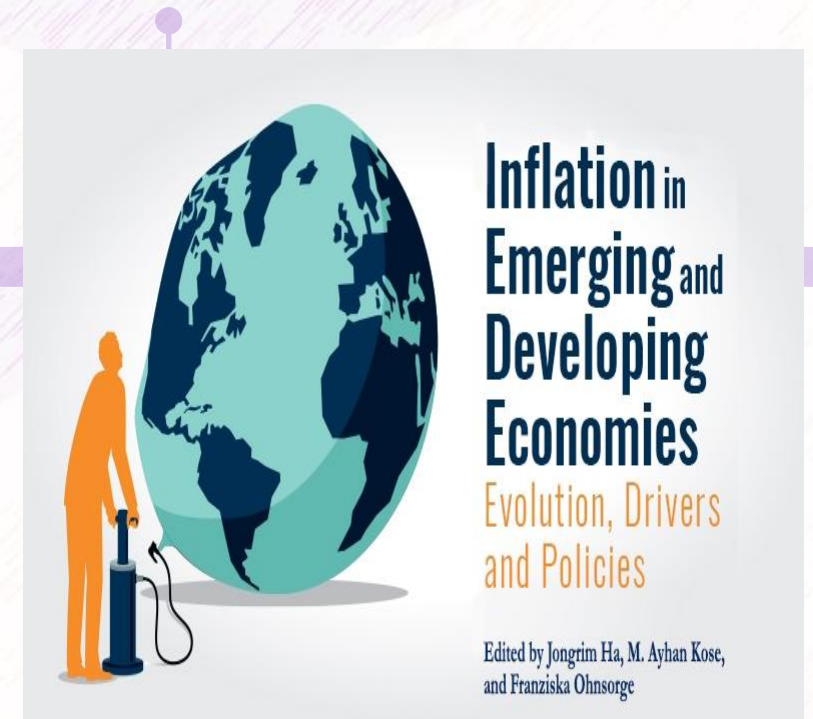

Paper 4- developing capacity in the survival of start-ups of more than 3 years in average and development of safe exits to youth projects.

Project 1- Build focused positive psychology waves of Radio & TV Programs initiatives that raise the aspiration of the society and trust of future of the socio-economy of the country

Paper 3- funded projects to make success stories through the domino's effect of Labour Funds.

Paper 1-Industrial Relations in Emerging Economies

Paper 5- selective thinking in way of investment of pension fund that would enhance the productivity of the national economy

Project 2- Improving Camel Wool Carpet Factory through Decentralising Productions to be from Villages

Projects Led by

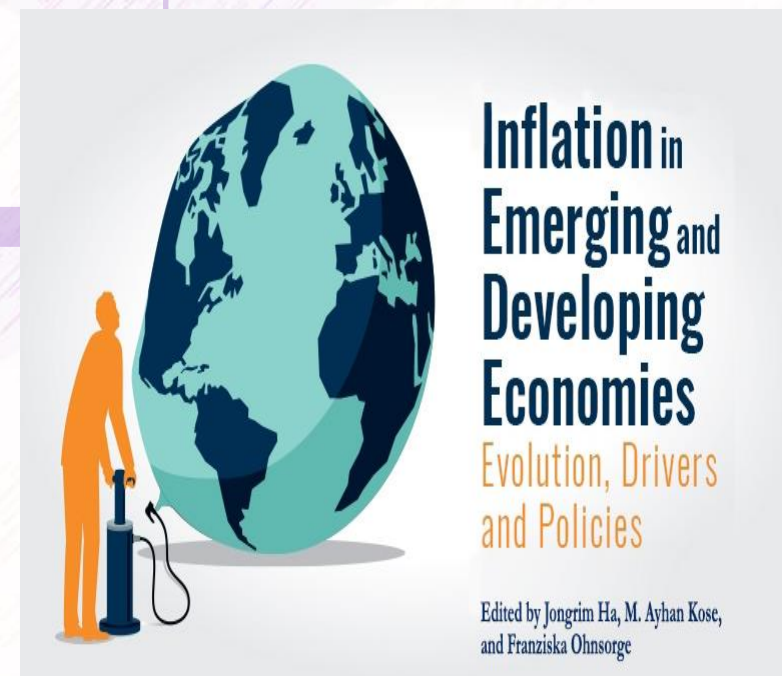

Emerging & Developing Economy (2)

Project 2- Diverting more tenders to the benefit of local SMEs

Project 3- Innovation in Developing and Transition Countries

Project 1- Representation of the essence of Zakat as a collaborative economy club on the rich and middle-class citizens.

Women Development

Paper 2- Lifelong Learning in Relation to Inspiration of Women

Project 2- Ensure knowledge sharing between Business Women, Women Entrepreneurs and Women of Productive Families Programs

Project 4- Enhance young girls' involvement in Woman village activities to ensure the sustenance of knowledge transfer.

Project 1- comprehensive outcome national plan that change the way a woman are empowered through giving her more accountability to create social cohesion, stability and competitiveness.

Paper 1- Inspiration Currencies in Woman Development Programs

Project 3- Supporting Women with a chain of sourcing Packaging, distribution and delivery

Women Development (2)

Project 6- Supporting Women with cheese packaging scheme & integrating with hospitality and tourism needs

Project 8- Improving deserted women shelters life-purposefulness and Economic returns

Project 7- Enhancing the pickles Return on Investment and profit margin

Project 5- impact of programs on 'woman development', not only 'women-empower', and the 'living standards' that comes with the 'Quality of Life' in the NGO

Project 9 - Reverse-Engineer Production to be from Villages and Women Homes. (Example Camel Wool Carpet Factory- by re-distributing the manual Wool Carpet Machines from Factory to Production Families .

Police Inspiration & Development

Paper 2- Empathetic Engineering in Police Inspiration Labs Program

Project 1- Reduction of drugs trafficking through refinement and codification of smuggling through reclassification of information.

Project 3- Reduction of gold and jewellery theft from gold market shops

Paper 3- Engage Police in Proactive traffic accidents reduction through emphasising the roads design based on worst driving cases not best cases

Paper 1- Empathetic Engineering & Happiness Creation in Public Policing Services

Project 2- Ease of flow from main points of entry at both airport and ports without increase in resources or negligence of safety and security

Project 4- Enhance social harmony between neighbours due to parking or similar small issues

Police Inspiration & Development (2)

Project 6- Improving the outcome of creating “Self-Dependent” youth in the ‘Police Youth Summer Camps’ which is held for 3 weeks.

Project 8-Reducing police turnover ratio in leaving specific critical units as i.e. ‘guarding in jail’ through rehabilitation units to minimise psychologically stress jobs.

Project 10-Strengthening the social role of the police (the relationship between police stations and community centres).

Project 6- Enhancing Police Experts Knowledge Sharing thru I ‘Projects Closures’.

Project 5-Reduction of legal cases transferred due to family and marriage disagreements by solving it at first instance in the police station.

Project 9-Enhancing Community-based Prevention Policing through improved screening and security assessment (in police stations).

Project 11- Raising learning and knowledge management in (Economic Crimes).

Police Inspiration & Development (3)

Project 13-Increase the efficiency of patrols (abandoned houses)

Project 14-Improve the follow-up service of the communication with the stakeholder in police stations.

Project 16- Improve mobile policing effect and efficiency.

Project 13-Enhancing social security by promoting prevention in the social tranquillity.

Project 15- Raising Safety Readiness and Evacuation of residential and commercial buildings (Civil Defense).

Project 12-

Project 12-Increasing the efficiency of the performance of senior leaders through prioritization of incoming mail (in Criminal Investigation).

Migrants – Refugees - Marginalised

Paper 2- Refugees during COVID-19

Project 2-Enhancing Refugees Quality of Life through discovering their available Wealth

Project 1- Identifying the Marginalised and What Type of Independent Business Models can developed for them

Paper 1-Exploring Migration Economy – Understanding the Loss of the Arab World

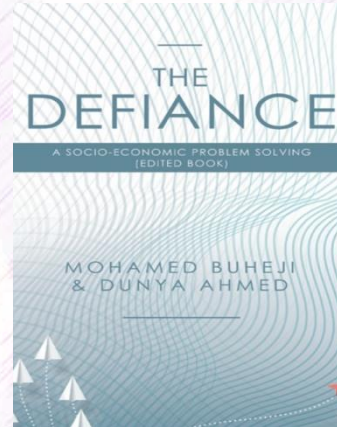

Empathetic Engineering

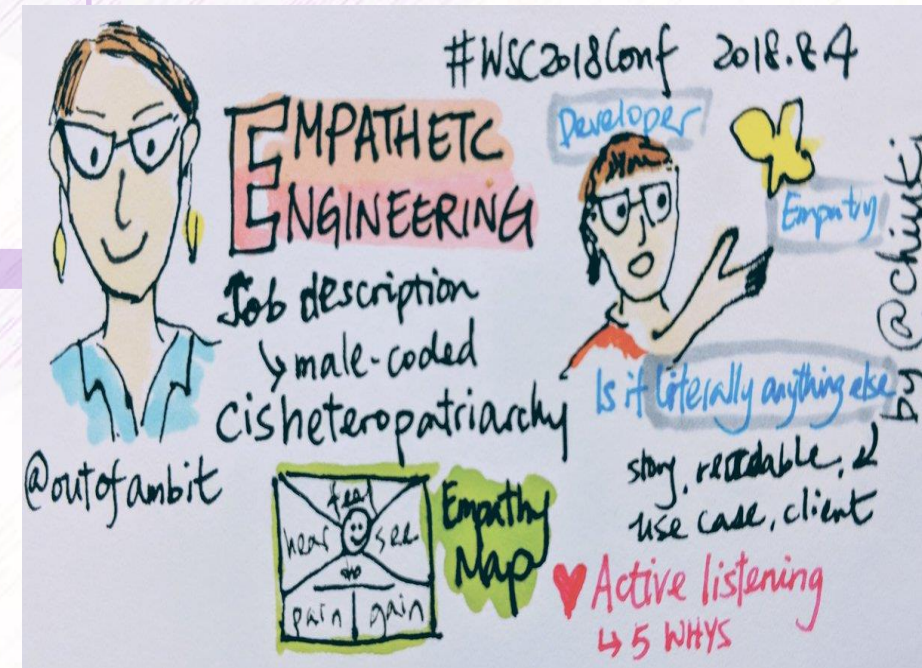

Paper 2- Empathetic Engineering in Inspiration Leadership Program

Book 1- The Defiance

Paper 3- Empathetic Approach for Complex Socio-Economic Problem

Paper 1- Role of Empathetic Engineering in Building More Resilient Green Economy.

Projects Led by

International
Institute of
Inspiration
Economy

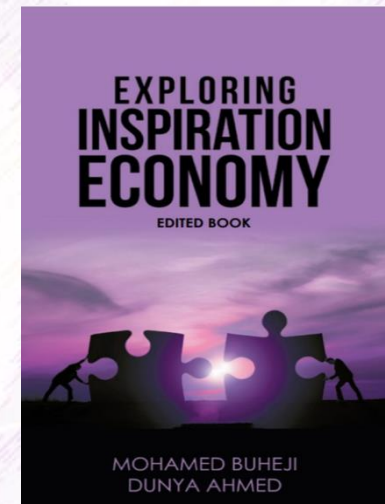

Inspiration Labs

Paper 2- Inspiration Engineering: Philosophy, Practices and Success Stories

Paper 4- Inspiration Economy Currency

Paper 6- Poverty Labs- From 'Alleviation' to 'Elimination and then Prevention'

Book 1- Exploring Inspiration Economy

Paper 3- Role of 'Inspiration Productivity

Paper 5- Youth Unemployment Mitigation Labs

Paper 1- Reflexivity in Applying "Inspiration Economy" Research: Changing the Game to Make the Research Groups "Researchers"

Paper 7- A Longitudinal Review of the Economic Influence of Inspiration Labs: Three Years Journey on Socio-Economic Solutions

Basic Education

Project 1- Discovering the type of inspired students that can be even better than gifted, competitive and innovative students.

Project 3- Establishing Inspiration Curriculum and program

Project 5- Establishing Future Boundary-less Schools

Project 2- track of the inspired students after graduation (Inspiration Pathways).

Project 4- Establishing early inspiration discovery program.

Project 7- QA system create job creators not job seekers

Project 6- Ensuring that all students in under-performing school meets the minimal standard.

Paper 1- Civic University: The Policy and Leadership Challenges

Basic Education (2)

Project 9- Formal and Informal Education for children in slums areas.

Project 11- Go beyond awareness for school bullying, harassment, etc.

Project 13- Improving Pre-School influence programs on Children of Homeless and Beggars' families.

Project 10- Simplify tools for measuring students safety or positive psychology or stress release

Project 8- Target to deliver education to rural and isolated communities.

Project 12- Deliver solutions as the school-community programs through creating models in the school first.

Project 14- Establish outcomes that are measured by 'open book exam' and by effective projects that measure students persistent in creating positive change

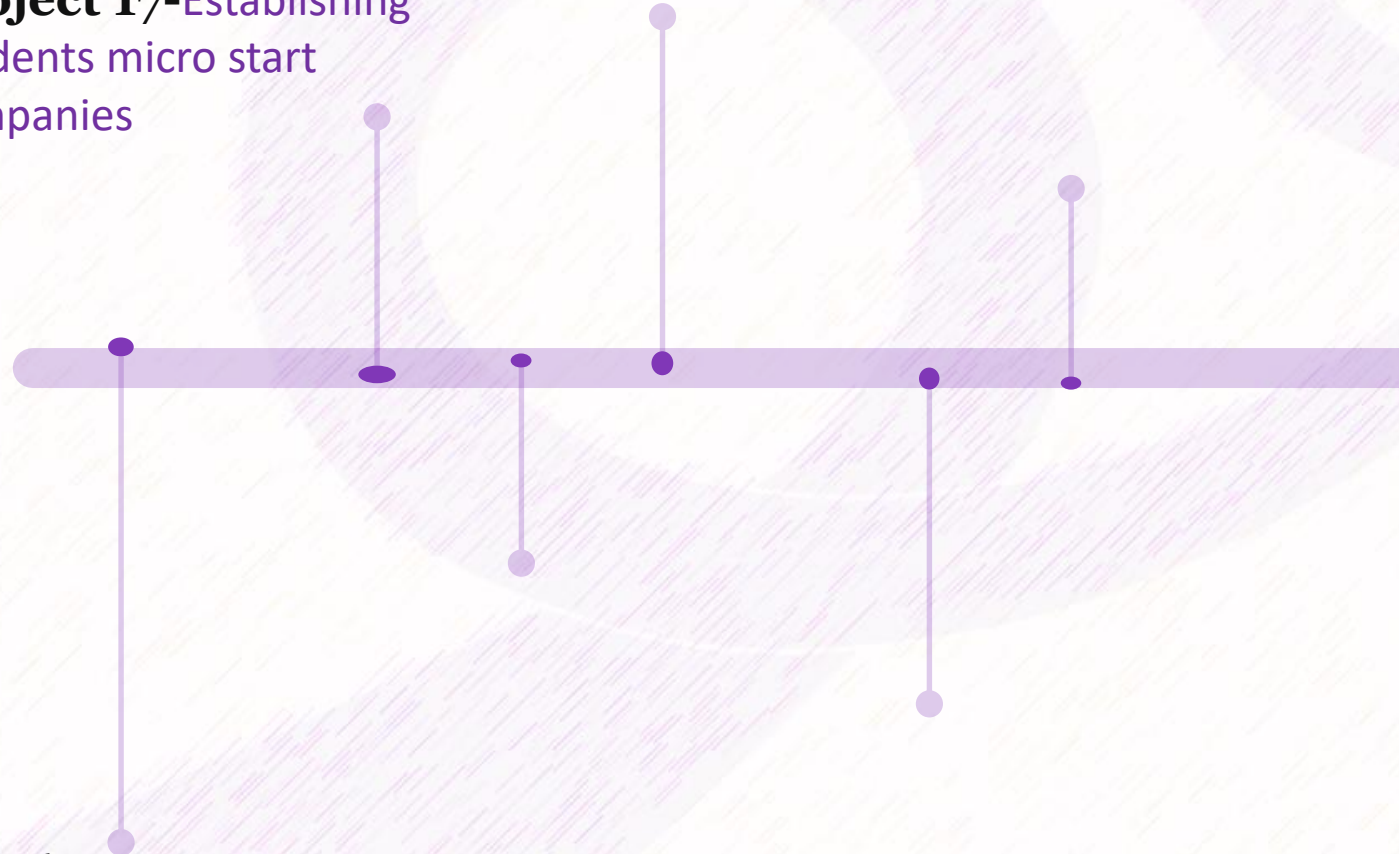

Project 15- Tackle issues of students' depression and see its influence on the society

Basic Education (3)

Project 17-Establishing Students micro start companies

Project 16-Showing the benefit and the differentiation of the 'Non-Performing Students' towards Society and Socio-Economy.

Hospitality Economy

Project 2-Selective Areas of Organic Farming is turned around with eco-tourism to enhance their profit margin and quality of life of Villagers.

Project 4- Mapping Community Competency with Capacity for Hospitality

Project 1-

Project 3-.Improve Nation Competency for Self Sufficient of Hospitality Labour

Project 1-

Project 1-Establishing accelerator incubator for hospitality tourism in the selected nature wealth areas

Project 1-

Higher Education

Project 2- academic counselling that enhance the students' graduation time

Project 4- Improve the University capability to attract competitive projects and contracts through re-organising its knowledge expertise and profile.

Project 6- apply 'Pull-thinking' technique to improve academic advisory services

Project 3- Improve the academic & motivation (psychological) counselling that enhance the students' graduation time and give proper guidance in the right time.

Project 1- Lifelong learning skills programs within the Curriculum in PILOs & CILOs

Project 5- readiness for students lifelong learning skills as per type of specialty and disciplines.

Project 7- Lifelong Learners Students through inspiring way of flipped class teaching and ensuring suitable preparedness for coming life challenges.

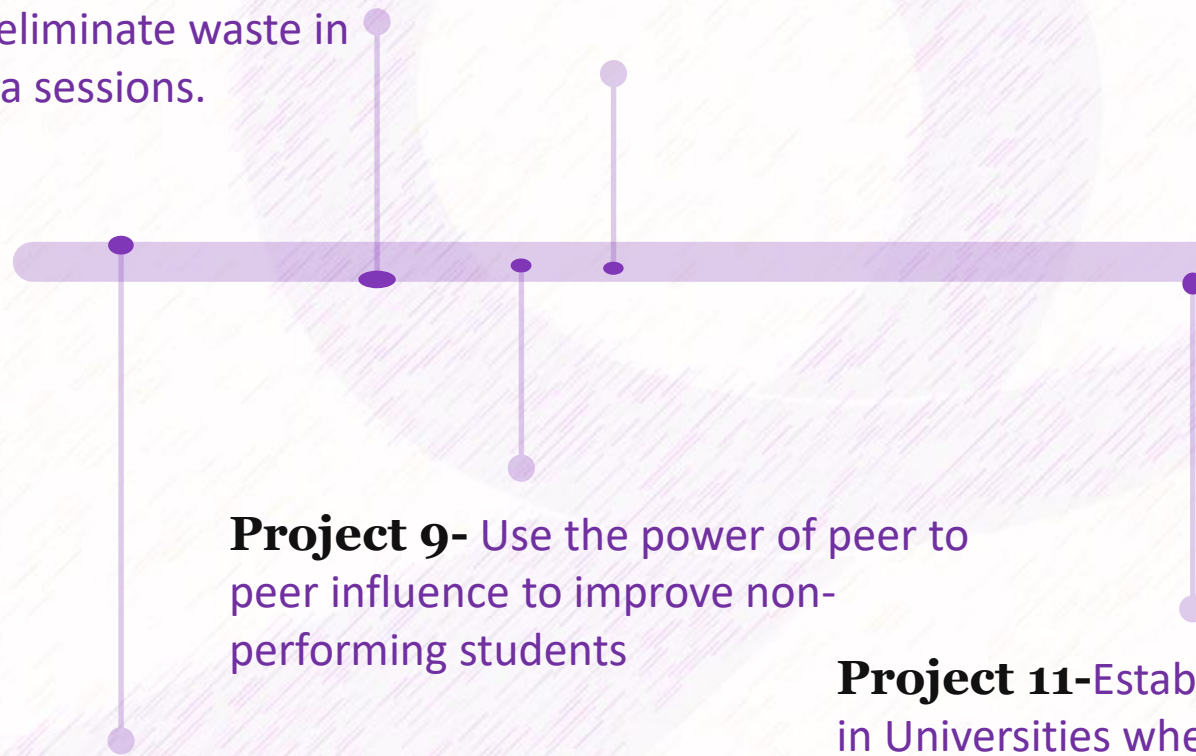

Higher Education (2)

Project 8- 'smart registration practices' that enhances the students' choices and eliminate waste in opening extra sessions.

Project 10- Bridging the gap between academic Social Work and Social Studies Schools and the realised community problems.

Project 12- Bridging the gap between academic Social Work and Social Studies Schools and the realised community problems.

Project 9- Use the power of peer to peer influence to improve non-performing students

Project 7- Re-Engineer the integrity of the University Social Responsibility and Industries relation

Project 11- Establish 'resilience courts practices' in Universities where variety of students of different religions, ethnicity, etc. background defend for the same case to build tolerance.

Higher Education (3)

Project 14- Setting life purposefulness Mindset Program

Project 15- Simulation experiments & hands-on to enhance the community innovation around the university campus.

Project 13- Multi-disciplinary teaching in classes

Elderly Care

Paper 2-The Case of Independent Living

Project 1-Improving the total throughput in Accident & Emergency

Paper 3-Effective Elderly Care Home Visits and management of pre-admission and post-discharge

Paper 1- Improving the Quality of Life of the Elderly/ Geriatric Care Homes through exploring social asset of Day-Care Homes, instead of permanent residency homes.

Improving Public Health Outcome

Project 2-Enhancement of Quality

Families Physician Program & Effectiveness.

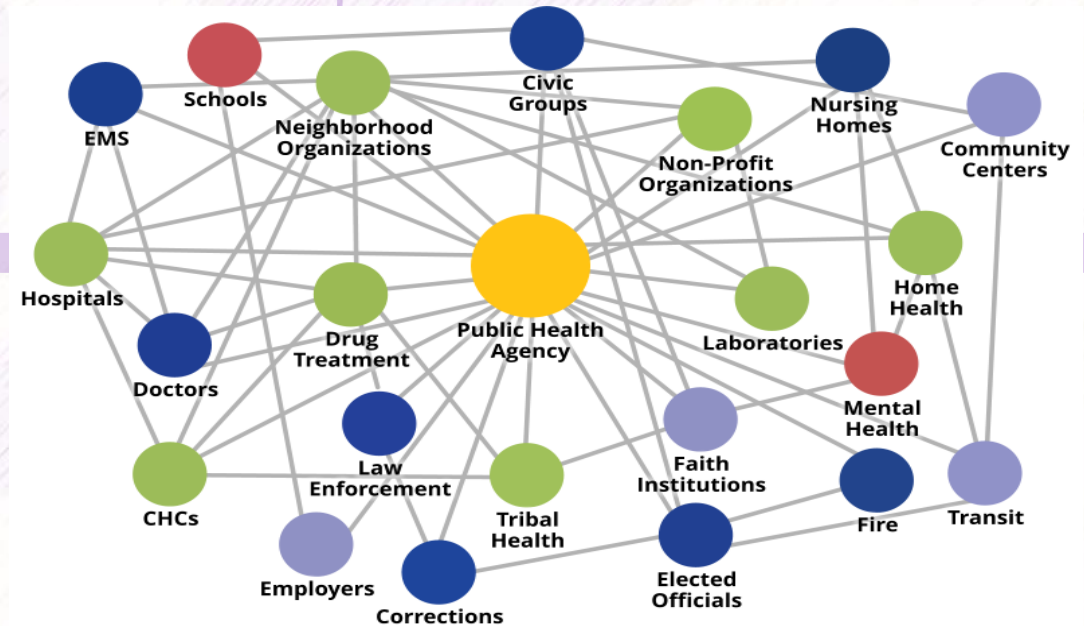

Project 4-Early detection of Psycho-Semantic in relevance to Anxiety in Health Centre.

Project 3-Enhancing Triage to patients' priority system in all health centres.

Project 1-Early detection of Non Communicable Diseases (NCD's), i.e. Diabetes, Blood Pressure, Cholesterol and Obesity.
